## “Dental Exam”

Inspired by Ronadró' and created especially for the female dental professional, “Dental Exam” is an extraordinary depiction of the dentist and patient in a preliminary examination. Joined together by a twisting and flowing contemporary environment, the two are as one.

The attention to detail and the rich and varied patination of this work of art is spectacular. This is truly a sculpture for the discriminating first time buyer or seasoned collector, and will be a treasured addition to any home or office décor.

“Dental Exam” is mounted on a formal black walnut base topped with verde marble.

## Letter from Diane

This past year has been very busy for Nadia International. Our international market growth is at an all-time best. Ronadró's sculptures are collected by doctors in 79 countries with Jordan being added to the list. We are pleased to be on the Exhibitor's Advisory Committee of the Society of Thoracic Surgeons and American Academy of Orthopaedic Surgeons. In the last few months, we were also invited to be part of the Exhibitor Advisory Committee for the American Association of Neurological Surgeons.

We continue to introduce new sculptures to the Ronadró Collection. At the same time, sculptures such as “Dentistry Past” and “Trusting Hands”, are beginning to sell out. If you are interested in expanding your collection, visit our website [www.Ronadró.com](http://www.Ronadró.com) or call me for additional information.

We look back at the last 12 months with immense gratitude to all of our loyal collectors. Your kind words about the beauty of Ronadró's sculptures deeply touch me and are appreciated. He had the artistic vision to capture who you are and what you do like no other artist. His creativity is unmatched in the dental and medical art world.

Below is a list of our meetings for the next 12 months. Follow us on Facebook and learn more about our conventions.

Looking forward to seeing you!
