

Tooth Fairy

ON THE COVER

“Tooth Fairy”

The “Tooth Fairy” is truly a remarkable creation by Ronadró. It appeared on our front cover 20 years ago and by popular demand it graces the cover again. The fairy is actually emerging from a tube of toothpaste and is inserting a coin under the child's pillow. The sleeping child seems to be suspended in air. The attention to detail and the rich patina shades of green, mauve, white, yellow and brown makes this a spectacular work of art. This sculpture will be a treasured addition to any home or office décor.

Letter from Diane

As we celebrate the 35th anniversary of the Ronadró Collection, I reflect on this amazing journey we have taken together.

Ronadró's dream began with a beautiful porcelain dental figurine entitled, “First Visit”. His artistic vision took him to some of the most beautiful bronze sculptures ever created for the medical/dental professional. With his talent and creativity, he took us to an art world that spoke to us, told a story and brought out emotion.

It is the greatest achievement of an artist. After 1000 + conventions in 35 years, not a day goes by we are not grateful to our family of collectors. You allowed his legacy to continue and reach this milestone by letting Ronadró into your homes and offices. You are the foundation of his success.

Thank you for allowing me to continue with the conventions as I love visiting with all of you and hearing your kind words about Ronadró. It has been eight years since he left us and not a day goes by that I don't miss him by my side. Your testimonials are my strength as we are still surrounded by his incredible art work which keeps him in the present. We have built the Ronadró brand name in 80 countries, but more importantly we have built friendships.

Conventions have been canceled for the balance of the year due to Covid-19. We definitely will miss everyone and hope to see you in 2021. Follow us on **Facebook**, **Instagram** and our new **YouTube** video and learn more about Ronadró specials. Visit our web site www.ronadro.com as we have added **Video Testimonials** to our home page. Hear what your fellow doctors are saying about the Ronadró Collection.

LEGEND OF THE TOOTH FAIRY

We have added video testimonials to Ronadro.com. Hear what your fellow doctors are saying about the Ronadró Collection.

Words written about Ronadró

By his mentor, Lucas,
A master sculptor from Spain

"If I have to make an analysis of the work of an artist, I must first ascertain if the artist has a proper and personal technique to express his concept in his works of art. In the case of Ronadró, it is obvious that this technique and artistic knowledge are his major qualities and these qualities are not usually found in the world of actual art. The majority of artists put away the knowledge of the material and technique and pretend to make their work full of concept but fail to achieve their purpose of understanding by those viewing their work of sculpture. However, Ronadró does not have this problem. His works speak for themselves with intelligent language full of content. What is more important, it speaks with a language that all can understand".
