## ON THE COVER

### “Meditation Moment”

“Meditation Moment”, Ronadró captured one of the most striking poses of the surgeon....the surgeon in full scrubs. Extremely well detailed and finished in a green/blue patina with a dark brown background.

An award winning sculpture, “Meditation Moment” is mounted on a solid black walnut base which is topped with verde marble.

**Size: 9”w x 9” d x 18.5” h**

## Letter from Diane

I hope you are all safe and healthy as it has been a difficult time for the our country and the world during the last 18 months. We have travelled with the Ronadró Collection for 35 years and suddenly it all stopped . . . it became a new way of living.

We look back at the last year and a half with gratitude. There were tough times but the Ronadró Collection was able to survive as many of you placed phone orders and for that we are grateful.

For the first time, the Collector’s Corner is without photos from conventions as many were cancelled or went virtual. It has been a long time and we have missed you. We can’t wait to see you at the upcoming meetings, so stop by to say hello and take advantage of our specials.

In this issue, we are offering a promotion of 15% off the entire collection which will end in December 2021. In addition, receive an extra \$100 off your order when you subscribe to our **YouTube** Channel (RonadroCollection). Don’t forget to follow us on **Facebook** and **Instagram**.

On the front cover is the very popular sculpture “Meditation Moment” created years ago by Ronadró but never graced the front page.

We look forward to visiting with all of you as we are once more **“BACK ON THE ROAD”!**

Warmest regards,

**Diane G. Wicks**

# The Generations of Cast Bronze

Collectors have asked about the process used to create a bronze sculpture. Lost wax bronze casting has basically remained unchanged for more than 3000 years. In modern times producing a bronze sculpture involves five steps, referred to as "generations", from original art to finished bronze, and they are simplified as follows:

1. **Original Art** - (a positive) created by the artist in clay, wax, stone, plaster or almost any other sculpting medium.
2. **Reproduction Mold** - (a negative) usually made of flexible rubber.
3. **Wax Pattern** - (a positive) poured molten into reproduction mold and removed when cool.
4. **Casting Mold** - (a negative) ceramic shell incasing wax pattern, which is burned out as a high temperature. (thus the traditional name "lost wax casting")
5. **Finished Bronze** - (a positive) chased, patina applied and based.

## FROM THE MAILBOX

I love art and its ability to convey meaning be it on canvas or bronze. I was struck by how "Meditation Moment" by Ronadró captures the essence of a surgeon, about to embark into the seriousness of our craft: an operation on a patient who depends on us, trusts us with their life. That simple and that complex.

I just received the two Ronadró sculptures. They are truly stunning and can't wait to receive the third one. I am so in love with your husband's work and wish I could purchase the entire collection.

**ARH**  
**Saudi Arabia**

The art I purchased "Moments of Meditation" has been a great source of joy for me. I love it!

**BSA**  
**Nebraska**

The sculpture is beautiful and enjoying it very much. Thank you for being so easy and delightful in working with us.
