ON THE COVER

“PROFESSIONAL HAND”

A remarkable sculpture showing the patient's face done in a mask form is completed with a gold patina beginning at the forehead blended into a dark red patina and continuing into a very dark/blue at the bottom of the environment. The dentist's hand is offset from the patient's face giving the appearance the hand is suspended in mid-air. This sculpture is mounted on a black walnut base topped with marble.

Letter from Diane

Thirty-eight years ago, Ronadró began sculpting beautiful museum quality bronze pieces of art representational for all dental and medical professionals of the world. Known for his strict attention to detail, Ronadró's artistic vision has placed these exquisite award winning sculptures and figurines in offices, homes and museums not only in the USA but in 81 countries. His astounding success and prominent place in renowned circles of distinguished sculptors has been reached because of you...our Family of Ronadró Collectors, now numbering over 8000+. You are the foundation for keeping his legacy alive. I am forever grateful for all the kind words, stories and encouragement you have shared with me over the years.

As I approach my 70th birthday, it is time for me to slow down. I enjoy conventions the most as it allows me the opportunity to visit with all of you and meet new collectors along the way. I am not retiring but will exhibit at less dental conferences starting in 2024. The Ronadró Collection is still here and this is the time to add to your collection. Availability will be decreasing as sculptures are selling out.

Featured on the front cover of this Collector's Corner is the very popular “**PROFESSIONAL HAND**” created for the dental professional. A few sculptures such as “**LEGEND OF THE TOOTH FAIRY**” and “**ESTHETIC EVALUATION**” are close to being sold out. Don't hesitate to add these popular sculptures to your Ronadró Collection.

The PRIVATE OFFERING is available of Ronadró's original Artist Proof of each design on page 6. We have already sold more than 32 originals and these are the most valuable in the collection. Please read our special announcement on page 8 regarding a FREE dental porcelain figurine.

Check out our calendar of the fall 2023 and 2024 meeting schedule. Stop by to say hello, view what is new and take advantage of our meeting specials of 15% off the entire collection. A Great Moment!

Drs. Bryan Baker and Kim Perry are Ronadró Collectors for many years. They are both graduates of UNC Chapel Hill School of Dentistry class of 1988. They have not seen each other since graduation and saw one another at the Ronadro' booth after 35 years.

On the night of June 21, 2023 in Hong Kong, friends, fellows, mentors and arthroplasty surgeons from around the world gathered to celebrate the retirement and accomplishments of Professor Peter Chiu. Presenting Ronadrós "Total Hip" bronze sculpture to Professor Chiu, for his 35 years of contributions to HKU and the community, is Professor CS Lau of HKU Medical.

William Chang loved the bronze sculpture, "Knee Arthroscopy" from the Ronadró Collection. The 3-Chip Camera represented in the sculpture, a Stryker product, was invented by Mr. Chang.

We Are Proud

Ronadrós “MOMENTS OF MEDITATION” is displayed at St. Barbara’s Surgery Center in Naples, Florida. The complex has 10 medical buildings and as patients arrive for their eye surgery, they identify the correct building with the sculpture. This building was dedicated to Valerie Fuller who died in 2007.

Ronadrós award winning sculptures make great gifts and presentations

Dr. Marcelo Puello-Vales, from Dominican Republic has been part of our family of Ronadró collectors for 16 years.
